

## D99667GC20 - Oracle Database 12c R2: SQL Tuning for Developers Ed 2

<b>Czas trwania:</b>	Czas trwania: 3 dni / 24 godz.
<b>Cena rynkowa:</b>	4 695,00 zł
<b>Cena promocyjna:</b>	Zadzwo - 801 30 30 30
<b>Szkolenie autoryzowane:</b>	Tak

### Informacje o szkoleniu

#### What you will learn

In this application development-centric course, students learn about Oracle SQL statement tuning and how to write well-tuned SQL statements appropriate for the Oracle database. Students learn to interpret execution plans and the different ways in which data can be accessed. Students are shown how to decipher, decide and then apply tuning to their SQL code. Various tuning techniques are demonstrated. For example, taking advantage of bind variables, tracefiles, and using the different types of indexes.

#### Benefits To You:

Benefit from gaining a deeper understanding of Oracle SQL statement tuning and how to write well-tuned SQL statements appropriate for the Oracle database in this application development-centric course. You will learn how to decipher, decide and then apply tuning to your SQL code. Various tuning techniques are demonstrated.

### Wymagania wstępne

#### Required Prerequisites

Familiarity with database architecture  
Knowledge of SQL and PL/SQL  
Oracle Database: Introduction to SQL Ed 2  
Suggested Prerequisites

Oracle Database: SQL Workshop I  
Oracle Database: SQL Workshop I Ed 2

### Zagadnienia poruszane podczas szkolenia

- Course Objectives
- Modifying a SQL statement to perform at its best
- Identifying poorly performing SQL
- Tracing an application through its different levels of the application architecture
- Understanding how the Query Optimizer makes decisions about how to access data
-

Defining how optimizer statistics affect the performance of SQL

- ▣ Listing the possible methods of accessing data, including different join methods
