### Informacje o szkoleniu

Jest to 3-dniowy kurs ILT, który jest przeznaczony dla potrzeb specjalistów IT, którzy biorą udział w administrowaniu, konfigurowaniu i obsłudze usług Office 365 w środowiskach hybrydowych, gdzie część infrastruktury jest hostowana lokalnie. Ten kurs obejmuje również zarządzanie to samo ciemi, uwierzytelnianie i technologie pomocnicze dla usługi Office 365. Ten kurs koncentruje się na umiejętnościach wymaganych do administrowania i rozwijania problemów z dzierżawą usługi Office 365 oraz kluczowych usług usługi Office 365, takich jak Exchange Online, SharePoint Online i Skype dla firm, a także usług, takich jak uwierzytelnianie wieloskładnikowe Azure (MFA), usługa Azure Active Directory Identity Protection i Azure Active Directory Privileged Identity Management. Wszystkie te usługi są objęte aspektem hybrydowym. Ten kurs zawiera wiedzę na temat korzystania z usług Office 365 zarówno dla zasobów w chmurze, jak i lokalnych.

Czego się nauczysz

- Describe Office 365 administration and licensing.
- Deploy and configure directory synchronization.
- Plan an Exchange Server hybrid deployment.
- Perform an Exchange Server hybrid deployment.
- Deploy Skype for Business in a hybrid deployment.
- Deploy SharePoint and OneDrive for Business in a hybrid environment.
- Deploy additional Office 365 services in a hybrid deployment.
- Deploy various authentication methods in a hybrid Office 365 deployment.

The audience for this course includes IT professionals and system administrators who want to learn how to implement and maintain Office 365 in hybrid scenarios, where one part of collaboration infrastructure is located on-premises and integrated with Office 365 services. These professionals should have at least 3 years of experience working in their respective fields—specifically, previous knowledge about Exchange Server, SharePoint Server, and Skype for Business Server (for example, Lync server) is expected. Students who attend this course are also expected to have a fairly broad understanding of Office 365 services administration in general as well as several on-premises technologies such as DNS and AD DS.

At course completion.

## Wymagania wst pnie

In addition to their professional experience, students who attend this training should already have the following technical knowledge:

Minimum of two years of experience administering the Windows Server operating system, including Windows Server 2012 or later

Minimum of one year of experience working with Active Directory Domain Services

Minimum of one year of experience working with name resolution, including Domain Name System (DNS)

Experience working with certificates, including public key infrastructure (PKI) certificates

Experience working with Windows PowerShell

Experience working with Exchange Server 2013 or later, Lync 2013 Server or Skype for Business Server 2015, and SharePoint Server 2013 or later.

Experience working with Office 365 key services such as Exchange Online, Skype for Business and SharePoint Online

An understanding of the following concepts as related to Office 365: Microsoft cloud services, Office 365 platform

## Wymagania wst pne

Brak

## Zagadnienia poruszane podczas szkolenia

- ▣ Course Outline
- ▣ Module 1: Introduction to Office 365 administration and licensing
- ▣ Module 2: Deploying and configuring directory synchronization
- ▣ Module 3: Exchange Server hybrid deployment planning
- ▣ Module 4: Exchange Server hybrid deployment
- ▣ Module 5: Skype for Business hybrid deployment
- ▣ Module 6: SharePoint and OneDrive for Business hybrid deployment
- ▣ Module 7: Deploying additional Office 365 services in a hybrid deployment
- ▣ Module 8: Authentication options in hybrid deployments
