Informacje o szkoleniu

About this course

Content is the most critical digital asset for every organization. In this course you will learn how to plan, configure, and manage SharePoint Site Collection and OneDrive for Business to enable modern content services which transform the content lifecycle. Specifically, this course discusses the modern SharePoint site structure, such as SharePoint hub sites. It provides best practices for the adoption and deployment of OneDrive for Business within your organization. It also covers sharing, security, and monitoring in SharePoint Online and OneDrive for business.

This course is designed for IT Professionals who deploy and manage the teamwork infrastructure in their organization.

This is the first in a series of four courses for the Teamwork administrator. These courses help prepare for the exam MS-300: Deploying Microsoft 365 Teamwork.

Wymagania wstępne

Prerequisites

Learners should start this course already having the following skills:

Experience with Windows PowerShell.

Basic understanding of Active Directory and Azure AD.

Basic understanding of mobile device management, and alternative operating systems (Android and macOS).
